SAFETY TRAINING SYSTEM • SINCE 1929

## A DEFENSIBLE SAFETY TRAINING SYSTEM FOR CONSTRUCTION EMPLOYERS

**Content. Tools. Proof.**  
**All in One Ecosystem.**

The problem isn't training.  
**It's proof.**

Most contractors have safety content somewhere. But when it matters, the question is always the same:

- Who was trained?
- When were they trained?
- Was the training tied to the hazard?
- Was it completed before the task?
- Can we prove it quickly?

### BUILT AROUND THE WAY CONSTRUCTION SAFETY ACTUALLY HAPPENS

#### ASSIGN

Training by role, crew, jobsite, shift, hazard, or task.

#### REINFORCE

Key safety expectations with toolbox talks, microtraining, and supervisor resources.

#### DOCUMENT

Completions automatically. No more scattered binders or spreadsheets.

#### SUPPORT

Supervisors with ready-to-use materials for real jobsite situations.

#### PROVE

Training activity with records you can produce for audits, inspections, claims, and prequalification.

Toolbox Talks & More

## SAFETY PERFORMANCE THAT MATTERS TO CONSTRUCTION EMPLOYERS

**8x** TRAINING RETENTION  
compared to the industry norm.

**35%** AVERAGE WORKERS' COMP PREMIUM REDUCTION

**60%+** AVERAGE REDUCTION IN WORKPLACE INCIDENTS

By improving training documentation and consistency, SafetyNow helps construction employers achieve better U.S. outcomes over time—including stronger workers' comp performance, EMR improvement, more productive insurance conversations, and enhanced contractor prequalification.

### INSURER-VALIDATED PROOF POINTS

Selective • Berkshire Hathaway • Markel • State-Specific Underwriters

## WHY U.S. CONSTRUCTION COMPANIES CHOOSE SAFETYNOW

- ✓ More consistent safety training across crews and sites
- ✓ Practical tools supervisors will actually use
- ✓ Cleaner records and less administrative burden
- ✓ Training that connects to real jobsite risks
- ✓ Ready when OSHA, owners, GCs, insurers, or auditors ask for proof
- ✓ Stronger safety culture that protects people and projects
